VARIATIONS AND FLOORING FACTS

Wonderwood Floors Products are made from natural materials. Individual pieces and batches may vary in colour, texture and naturally occurring features.

Reproduction in printing and photography are for guidance only. These give an indication of colour and are not necessarily representative of the overall effect or design.

When making your selection, please take care when selecting from a single sample, as this is only an indication.

In all jobs, the flooring products supplied will contain variation from board to board and job to job, and from the samples on display. The colour of your flooring may change over time with exposure to UV light.

Each flooring product continues to take up and release moisture during its life, depending on local conditions, environmental conditions and weather changes. Being aware of this and checking conditions is important before installation.

For a lasting floor product, it is essential to install your floating floor in accordance with Wonderwood's guidelines. Please read installation guides before proceeding with your flooring installation.
